

Paint Can Pour Spout

Gallon Paint Can
Pour Spout

Quart Paint Can
Pour Spout

Our pour spout is available in two sizes, gallon and quart. To attach it to the paint can, first remove the original metal lid from the paint can by prying it off with a screwdriver or a flat blade tool. Then place the pour spout on top of the can, and push it down until it snaps onto the top rim of the can. Each pour spout includes a screw-on cap to seal the container between painting projects.

Made of heavy duty polyethylene, this durable paint pour spout will last for years.

May be used with all water based, latex, or oil based paints. When using water based or latex paints, clean with soap and water. When using oil based paints, clean with mineral spirits.

Part #PCL (Gallon size)

Part #PCL-SMALL (Quart size)

Features:

- Makes Pouring Paint Easier
- Less Mess, Less Waste, Less Cleanup
- Two sizes: Gallon or Quart
- Air Tight Seal Keeps Paint Fresh
