

32-Gallon Wheeled Trash Can

The easy-roll wheels make transporting it a breeze! Simply tip the can at an angle by pulling the rear handlebar toward you until the load is balanced above the wheels. Then pull the trash can to your new destination while keeping the trash bin at the same angle.

The flip-open lid is attached to the can for added convenience. It never gets lost, and you never need to bend over to pick it up off the ground.

Side channels help prevent suction while lifting bag for easy removal. Uses 39-gallon trash bags.
